— SUMMARY —

Results-driven Senior Android Developer with 8+ years of experience (2016–2026) in developing, securing, and scaling enterprise-level Android applications. Currently working at Snapwork Technologies Pvt. Ltd. as a Senior Android Developer, handling projects for top banking clients like HDFC Bank, IndusInd Bank, IDBI Bank, Kotak Mahindra Bank, Bajaj Finserv, ICICI Bank, and others. Strong experience in technical decision-making, designing complex system architectures, and leading cross-functional teams to deliver high-quality banking solutions. Skilled in security (VAPT remediation), Cordova hybrid plugin development, and complete SDK integrations. Also experienced in using AI tools like GitHub Copilot, Cursor, and others to improve development speed and code quality.

— EXPERIENCE —

- 

Sr. Android Developer — Snapwork Technologies Pvt. Ltd.
Chembur, Mumbai

Apr 2021 — Present

Strategic Lead Android Engineer managing high-stakes banking applications for India's premier financial institutions. Responsible for critical technical decision-making, defining secure app architectures, and mentoring junior developers. Specialized in vulnerability remediation (VAPT), performance-first engineering, and complex SDK orchestrations. Managing 10+ major banking client deliveries simultaneously with a focus on security-first development and high-performance delivery.
- 

Mobile Application Developer — RSalesArm IT Services Pvt. Ltd.
Ghatkopar, Mumbai

Nov 2018 — Aug 2019

- Developed in-house apps (Royce, Tuneem Pro) featuring multimedia streaming (audio/video/image capture and playback), social interactions (comments, likes), event tracking, interactive quizzes, and an automated attendance system.
 - Alkem Laboratories — Alkepedia (10K+ Downloads): Feature development and maintenance.
 - Reckitt Benckiser — RBF3 (Internal Training App): Feature development and maintenance.
- 

Software Developer — Clear Secured Services Pvt. Ltd.
Sion, Mumbai

Feb 2016 — Nov 2017

- Contributed to the development and delivery of enterprise Android applications, including Fencer Audit (auditing mobile app), Fencer Telecom (internal enterprise mobile app), and Cleartask (home services mobile app).
 - Collaborated with cross-functional teams throughout the development lifecycle, contributing to requirement understanding, implementation, testing, and Play Store deployment.
- 

Independent / Startup work — Built 5+ applications across multiple domains
References available on request.

2017 — 2018

— PROJECTS —

- HDFC Bank (Mobile App)**

2023 — Present

HDFC Smart Account Opening : (Bank Employee Only)

- Remediated critical VAPT vulnerabilities across multiple full audit cycles; resolved SQLite VAPT and code tampering (hash + Play Store verification) issues
 - Led multiple target SDK migrations; updated deprecated platform APIs and resolved dependency conflicts to maintain Google Play compliance.
 - Built Firebase Barcode Scanner plugin and FCM HTTP V1 notification with hybrid data passing
 - Integrated Novopay SDK, PMSBY/JJBY SDK, Intune MDM, Morpho L0/L1 fingerprint SDK
 - Implemented Aadhaar QR data parsing, OTP QR plugin, eKYC multi-scenario handling, and liveness detection
 - Created dynamic + persistent Logger plugin; fixed camera (crop, black screen, selfie, A4 flow), dual signature capture, ANR/crash issues
 - Managed MDM changes, remote config handling (including Firebase downtime), and base64 image/PDF processing
- IDBI Bank (Mobile App)**

2023 — Present

play.google.com/store/apps/details?id=com.snapwork.IDBI

IDBI Bank GO Mobile+ : (1Cr+ Downloads)

- Full VAPT + AppSec remediation; integrated Play Integrity and device binding security
 - Created TextToSpeech, Voice Input, Firebase token, and Network Check custom Cordova plugins
 - Integrated ProtecttAI, Sarvatra, Appice, Dynatrace SDKs; updated Cordova version, SMS auto-read, multi-theme handling
 - Resolved Play Store policy issues; optimized app startup time, security, and overall performance.

Bajaj Finance Limited (Mobile App)

Apr 2021 — Apr 2023

play.google.com/store/apps/details?id=org.altruist.BajajExperia

Bajaj Finance : UPI & Loan App : (10Cr+ Downloads)

- Architected core app infrastructure: Maintenance API engine, Native C++ module (Security-Hardened), Deep-Link router, KPI event logger — driving architectural decisions for the entire ecosystem.
- Led the On-Boarding module end-to-end — optimizing for fast performance and zero-latency user journeys.
- Implemented AEM caching with high-efficiency background processing; reduced app load time by 30%.
- Integrated 12+ SDKs in a single release cycle.
- Remediated critical VAPT vulnerabilities; made executive decisions on security protocols and data encryption strategies.
- Implemented AI-driven code analysis to optimize Gradle builds and reduce binary size.

Bajaj Housing Finance Limited (Mobile App)

2023 — Present

play.google.com/store/apps/details?id=com.bhfl

Bajaj Housing Finance : (1L+ Downloads)

- Built multi-module PDF viewer using BundleTool (App Bundle); integrated BillDesk V2 (UPI payment)
- Implemented Firebase Performance Monitor; fixed launch delay, app stuck on start, app size optimization
- Created device detail and network detection (5G/4G) plugins; fixed Play Store policy issues and loader bugs

IndusInd Bank Ltd. (Mobile App)

2023 — Jan 2025

play.google.com/store/apps/details?id=com.indusind.indiebiz

IndusInd Merchant Solutions (IMS) — (rebranded to INDIE for Business, Jul 2025) : (5L+ Downloads)

- Led API version migrations; resolved deep-link issues (shielded/non-shielded)
- Integrated OneSpan, MoEngage, AppsFlyer, Signzy VKYC, Lookout SDK
- Built Custom Tab with callback handling, malicious app detection (foreground + background), QR on lock screen
- Developed TextToSpeech with notification, device details plugin, location plugin, contact picker
- Fixed biometric/fingerprint issues, splash freeze, login prevention on malicious detection, ANR/crash issues

Kotak Mahindra Bank Ltd. (Mobile App)

2023 — Jan 2025

play.google.com/store/apps/details?id=com.snapwork.kotak

Kotak fyn: Business Banking App : (1L+ Downloads)

- Full VAPT cycle + Play Store warning resolution; integrated BioCatch SDK with API responses/callbacks
- Fixed SSL pinning, certificate exceptions, Play Store crashes
- Built SMS reading via Consent API, SIM availability checks, Logger; fixed branch locator, barcode scanner, token, and native C class build issues

HDFC SEC: Share Market Trading & Demat Account App (Mobile App)

2023

play.google.com/store/apps/details?id=com.hsl.investright

HDFC Securities InvestRight : (10L+ Downloads)

- Full VAPT + SSL certificate integration; API migration; fixed Gainer/Loser API inconsistencies
- Resolved HSL Streamer connectivity, FNO date null values, device IP duplicate, and font license issues
